

THANKS MOM!

Sharing the gift of life is a great way to say "Thanks, Mom!"

Free Marrow Donor Cheek-Swab Test Kits **May 5 to May 19, 2008**

In honor of Mother's Day, people from across the country will be working together with one goal in mind: to save lives.

For many, the inspiration is Amy Katz, a vibrant, motivated 15-year-old who happens to have an adult form of leukemia affecting less than five percent of children. The only known cure for her cancer is a bone marrow transplant, however, she, and thousands like her have not yet found a match among the 10 million donors on the worldwide database. 'Amy's Army' was formed to help Amy find her match by hosting marrow screening drives in order to register more potential donors. These drives have registered over 8,000 new donors and created matches for 22 other patients, but not for Amy. I hope that you will consider registering to become a potential bone marrow donor in the National Marrow Registry.

You could be the one to save a life..... Be part of the National Donor Program's *Thanks Mom* Marrow Donor Drive and help us reach our goal of recruiting 20,000 new donors during the event. Mark your calendar! Go to the [Amy's Army website](http://www.AmysArmy.org) during the *Thanks Mom* event, **ending May 19th** to join for free. Supply is limited, order today! (A savings of \$52!)

**PLEASE HELP BY FORWARDING THIS TO EVERYONE IN YOUR ADDRESS BOOK!
THIS CAN GO TO ANYONE AGES 18-60, ANYWHERE IN THE UNITED STATES. YOUR
SUPPORT IS INVALUABLE....IN FACT IT'S LIFE-GIVING.**

Join the movement. Join the Registry. And tell your friends.

**For more information on how you can help Amy and to
learn more about becoming a donor please contact us.**
